Attention small-scale breeders!

Are you aware that it is the small-scale breeding operations that are breeding, raising and selling the majority of today’s champions? In addition to raising foals that are winning in Appaloosa show arenas across the country, many of you also raise colorful trail horses, the first time 4-H show horse, endurance horses and race horses, each that are owned, loved and cared for by Appaloosa enthusiasts.

We at Char-O-Lot are currently considered a large-scale breeder, breeding 15—20 of our own foals each year. There are a small number of us so-called “large breeders” left out here. Years ago being considered a large breeder would have meant you were breeding more than 30 mares per year and there were a greater number of large breeders in the market. Those days have passed for many, and with the decrease in both the number of large breeders, together with the number of mares they are breeding each year, the small-scale breeder is increasingly important.

Doug and I started out small and grew our program over the years. We commonly hear smaller breeders say they cannot compete with or measure up to the large breeders, which I would argue is not the case. It does not take a large breeder to raise nice foals year in and year out. Raising a nice foal requires perseverance and dedication. Paying attention to details, studying and working out what program works the best for you and produces the results you are looking for.

As large-scale breeders we have had amazing success over the years, such as being the Leading Breeder at the ApHC World Show several times and having two of our foals inducted into the Appaloosa Hall of Fame. However, what you may not know is that our most memorable medallion was the very first “Breeders Medallion” that we ever earned back in the mid-1970’s, which I still remember to this day. As a small breeder that was our greatest accomplishment, and is a goal that is still achievable for nearly all small breeders.

Consider as a small breeder that you can make a big difference. There is a market for quality Appaloosa horses that our large-scale breeders cannot possibly fill moving forward, and without your foals our industry will continue to experience a shortage of quality horses. Now more than ever there is a great opportunity for breeding horses—take advantage of that gap in the market that has been left by the decrease in the number of large breeders, and go out there and get your own breeders medallion!

Looking for a sire that will get you a stock horse? Then you need to really take a good look at Five Bars Of Silver. This stallion is sound, still roping and has sired foals with smarts, athleticism and cow. He is a reining champion and the very last foal from the immortal reining mare Ms High Five x High Sign (both ApHC HOF). Sterling is easy to handle and rides like a dream. He instinctively knows how to brace himself in roping and can rate a cow with the best of them. He gets his cow from Gay Bars Silver, two time (ApHC & ApCHA) Hall of Fame cutting stallion! Sterling, is your best bet for achieving your dream of the ultimate reining and/or roping tool! Take Sterling to a great cutting mare and magic will happen there too!

A CHAMPION in the cutting pen, Gay Bars Silver literally has no limitations as to what he can sire. His foals have points or won in events where you would never expect to see a cutting sire's get. That happens when the pedigree is completely saturated with talent; physically, mentally and athletically. Silver was balanced to perfection and sire's foals that are pretty enough for halter classes. Like their sire they are smart and want to learn; they love their jobs. Their athleticism is brilliant in events like: reining, games, team penning, cutting, roping or Hunter in Hand, they will get the job done. Want a slower paced class? Then, try riding these beautiful movers in the Ranch classes, they have points there too. Contact T.O.P. Appaloosas for your next champion!!

HONKYTONK WRANGLER is an ApHC Stallion and stands of 15.3 hands. This stunning bay and white stallion is the 2007 Reserve National Champion HHH 2 & 3 year old colts. Thank you, Christy King, for a great job showing him! After his show career “Wrangler” came home and went to work in the breeding shed, sireing 11 foal crops totaling 45 foals in 6 countries. Two of Wrangler’s foals went on to become a Reserve National Champion HHH (Promise/MedWrangler) and a Reserve World Champion HHH (Fearless) yearlings. Several of his foals are now old enough to be shown and are out there winning in performance! Wrangler’s color percentage is 100% on both apparoosa and solid mares! His foals are sweet, smart, sensible and stunning just like their sire!!!!

“Frozen Semen Only” Domestic frozen semen is shipped from Colorado State University (Fort Collins, CO) or Pioneer Equine Hospital (Oakdale, CA). International shipments are shipped and handled by Select Breeders Services, frozen semen is stored in North Germany and Congupna, Victoria, Australia. Shipping, frozen semen handling, and tank rental is at owner's expense.

GRANDSON OF THE GREAT High Sign Nugget and out of an Easy Jet bred mare. This awesome horse is setting the world on fire with his accomplishments. He has competed at the World Show in Working Cow Horse, Reining, all the Ranch classes, Team Roping and Call Roping. He has also carried people to the pay window in the rodeo arena and had horses picked up on him as well as been used his whole life on the ranch working for a living.

"Steve" as he is known to his friends, is free of any genetic defect and is also EE and LP. We will stand behind it with a "No sorrel, live characteristics, foot guarantee." He is enrolled in the Appaloosa Breeders Trust.

Steve also has a disposition that is amazing. He is very easy to get along with and wants to please. Gentle, gentle and has never bucked a day in his life. Steve has great bone and is very balanced.

One of the greatest compliments came from Mr. Jack Hennig when he said, "The thing about Steve (KJ UP IN SMOKE) is, that he has everything someone would want in a horse. He reminds me a lot of High Sign because of this. He has the attitude, conformation, intelligence, athleticism and most of all the feel and trainability for any discipline you choose. No matter what my goal is, from performance to pleasure to whatever your event, he is who I will breed my mares to."

RAGEOUS BLAZE will be standing again at Char-O-Lot Ranch in 2020.

We have a lovely crop of 2019 foals sired by "Blaze" that are currently turned out in the fields to grow and be "babies".

These foals will be brought in late summer of their yearling year to begin their training program.

We are excited to see the potential develop in these first foals.

LEOPARD COMPLEX (LP) TESTING

Horses eligible for N registration classification or registered a N or CN may now apply for advancement to Regular (#) classification through Leopard Complex (LP) genetic testing, if all genetic testing and advancement requirements are met. See Rule 239.E of the 2017 Official Handbook of the Appaloosa Horse Club.

If an owner of a non-characteristic (N or CN) classified ApHC-registered Appaloosa wishes to have LP testing for the purpose of possible advancement to Regular (#) classification the non-characteristic (N) registered horse must be DNA parentage verified and LP tested using the same sample with the ApHC.

LEOPARD COMPLEX (LP) GENE: The single gene believed to be responsible for the Ability of Appaloosas to produce the full spectrum of coat patterns, from solid to white with spots over entire body. This gene was termed LP for "leopard complex" by Dr. D. Phillip Sponenberg in 1982, and was described as an autosomal, incomplete dominant gene.

Horses negative for the LP gene (N/N) are solid non-characteristic, those with two copies of the gene (LP/LP) are homozygous, and those with a single copy of the gene (LP/N) are heterozygous with phenotypes ranging from solid to white with spots over entire body.

LP/LP HOMOZYGOUS: Positive for dominant LP gene, indicates the horse carries two inherited copies. Homozygous LP horses are genetically bound to pass the gene to 100% of their progeny when bred, and all foals will be LP carrying horses.

LP/ N HETEROZYGOUS: Positive for dominant LP gene, carrying a single inherited copy. Heterozygous LP horses are statistically likely to pass the gene to 50% of their progeny when bred.

N/N NEGATIVE: Negative for the LP gene, indicates the horse will not pass the LP gene to any of their progeny.

The registration section of the ApHC website is rather large and contains a wealth of information. Learn about:

* The registration process, transfers, and pricing on services
* Breeders Achievement Award
* Information concerning HYPP, frozen semen, and embryo transfers
* Order pedigrees and look up registered horses
* A FAQ section contains answers about DNA and other hot topics
